## BCP & BCM

*Making the Grade in YOUR School Foodservice Kitchen*

*Cooking in a Blodgett Combi improves the quality, taste, yield and nutritional value of your school food.*

- Greater moisture and flavor retention mean better tasting foods. In fact, food never needs to be covered using the combi mode. This speeds up the cooking process without drying out the food.
- Combi fried foods retain moisture and have a crispy exterior.
- Better moisture retention equals longer hold times and greater yields.
- Greater yields can lead to tremendous cost savings.
- Blodgett makes cooking for an entire student body simple. Our transport trolley and cassette rack ease the work process in your kitchen, increase productivity and ensure correct ergonomics when you load and unload the oven.

*Big school, small school, Blodgett has the right size oven for your kitchen.*  
BCP & BCM ovens are available in three sizes with rack spacing for either North American or European pans.

# Let your Combi do the DIRTY WORK!

Proper oven cleaning and deliming are the most important maintenance steps to ensure the longevity of any Combi oven. Blodgett makes both easy with CombiWash Self Cleaning and our EXCLUSIVE Semi-Automatic Deliming.

**Blodgett's BCP/BCM CombiWash feature enables your oven to clean itself with the push of a button.** Choose between 4 different cleaning cycles, depending on the level of soil in your oven.

Then just push a button to start the process. The oven cleans itself so you don't have to!

"Blodgett Combi ovens meet our needs in every way; it's one piece of equipment that can perform several duties. We get great fried food results without the use of oils or shortening. Blodgett offers competitive pricing, ease of operation, quality construction, and on-site training. One item that is difficult to measure but we found to be of great value is that Blodgett understands its customer and provides an extremely high level of customer service."
